Introduction

Split Pdf Server will help you to cut out pages from various PDF documents quickly and easily. Application may be used both on server and on single workstation, does NOT require an Acrobat installation and supports PDF 1.7 protocol.

Split Pdf Server is easy to use: program control is realized by using only a few parameters of command line. Application produces new output PDF document that consists of required pages.

Split Pdf Server application uses unique optimization algorithms what helps to reduce size of output PDF file appreciably when similar pages excerpt is used.

Split Pdf Server allows to cut out pages from PDF files in following modes:

- any pages in any order;
- divide source document into parts;
- cut out only odd or only even pages.

Due to use of specific solutions and algorithms Split Pdf Server application allows to compose PDF files 50 times quicker than Acrobat.

Features

Supports all versions OS Windows.

Automates the process of splitting multiple PDF files

Split individual pages, groups, odd or even pages.

Command Line options for automation.

Does NOT require Acrobat.

PDF Size Optimization better than Acrobat.

Retains PDF version information.

Installation

Extract the SplitPdfServer.zip to your hard drive.

Open the folder SplitPdfServer and go to Examples folder.

Run the test example.bat to test it's working.
